

# Prerequisites

## TRADITIONAL RN - HYBRID

Our 64-credit Associate of Science degree is a two-year program with a fall start for students with no previous nursing experience. Graduates are eligible to apply for their licensure as a Registered Nurse (RN).

The hybrid delivery model consists of online courses and in-person meetings. Course work online is asynchronous, it can be completed any time of day or night- whenever your schedule allows. Labs and clinicals take place on campus and in-person at either NTC or one of our local clinical sites. Students can plan to be in-person for approximately 4 consecutive days once per month for the duration of the program.

**Students must show that they are ready to take a college-level Math course. They can do that in the following ways:**

- Take a developmental Math course - MATH 0081 Math Foundations OR MATH 0092 Intermediate Algebra
- Meet minimum Accuplacer Assessment scores - can be taken remotely or on campus at NTC
  - 240 in Advanced Algebraic Functions | 250 in English/ Reading
- Have a high school GPA of 2.6 or above **IF** the student graduated high school in past 10 years
- Meet minimum ACT score in Math (22) within 5 years
- Meet minimum ACT + HS GPA of 2.7 or higher, within 5 years

**Students must successfully complete the following courses with final grade of C or higher:**

- BIOL 2260 Anatomy & Physiology I
- BIOL 2221 Microbiology **OR** BIOL 2262 Anatomy & Physiology II
- ENGL 1111 College Writing I
- Prerequisite GPA must be 2.76 or higher when all prerequisites are complete

**Students must also fulfill the following requirements:**

- A Certified Nursing Assistant active within 5 years or HLTH 1110: Nursing Assistant ( or course equivalent within 5 years)
- TEAS score of 64 or higher within 2 years

Once the TEAS test is complete and students have completed or are in progress with remaining prerequisite courses, they can fill out the Traditional RN Application. Students will learn of their admission status to the program approximately 30 days after the application has been submitted. Accepted students **must** accept their seat within two weeks of receiving their acceptance letter. Northwest Technical College utilizes rolling admissions. We review program applications in the order they are received until program seats and wait lists are full. Completion of prerequisites does not guarantee admission to our nursing programs.
