

Northwest
Technical College

IT'S NEVER TOO EARLY TO DREAM. IT'S NEVER TOO LATE TO START.

NTC is more than a nationally-ranked college — it's an investment in your future. Our interactive classrooms and experienced instructors put technology in your hands from day one. We'll get you on the fast track to a job that'll launch you into a lifelong career.

No matter what direction you go, NTC offers the right education, right now.

HEALTHCARE

Launching the next generation of healthcare workers

In the diverse and growing health and human services field, the need for qualified, compassionate professionals is greater than ever.

NTC's health care programs are based on quality instruction, hands-on experience and targeted training to meet increased market demand. Our programs give you the broad base you need to begin or advance in a wide variety of health and human services careers. Many of our graduates choose to continue their education at Bemidji State University or other four-years institutions.

FOLLOW YOUR DREAMS We offer programs in nursing, medical coding, dental assisting, health administrative leadership and health sciences, which is a transfer pathway to a variety of bachelor's degrees.

AUTOMOTIVE SERVICE

Keep business and industry moving

The automotive industry is always changing, which makes it a dynamic field to establish your career. The automotive service & performance program at Northwest Technical College features state-of-the-art labs equipped with current service and diagnostic equipment. Our graduates are prepared to work with the technology used in the industry upon graduating.

Classroom and hands-on training will cover topics including brakes, powertrain systems, diagnostic assessment, performance, an introduction to hybrids, basic welding, machining and more.

NOT JUST WRENCHES Apart from diagnosing and repairing automotive systems, you'll learn customer service skills and the ins and outs of the automotive industry. If you want to run your own shop one day, this program sets you up for success.

COSMETOLOGY

Transform the way others see themselves

To thrive in the beauty industry, you need technical training that is always cutting-edge and on trend. The NTC Cosmetology Academy opens up the world of style, design, and beauty, focusing on transformations that help people feel confident in their own skin.

We also offer certificates in nail technology and esthetics. Not only will you accumulate 1,550 hours of clinical time, you'll be prepared to take (and pass) the Minnesota cosmetology license exam.

YOUR STYLE Not only will you learn all the techniques and skills you need to be successful in a salon, but you'll perfect those skills offering services to real customers at the NTC Cosmetology Academy. You'll have all the knowledge to run your own salon one day.

EARLY CHILDHOOD EDUCATION

Nurture your passion

The importance of high-quality, early childhood education to children's growth and development is more widely appreciated than ever, producing increasing demand for professional childcare providers. Studying early childhood education at Northwest Technical College prepares you to provide a safe, healthy, developmentally and culturally appropriate learning environment for children from birth to age eight. You will learn to develop play-centered activities designed to help children grow cognitively, socially, emotionally, physically and creatively.

Our goal is to help ensure the success of young learners by educating the early childhood education experts of tomorrow.

NTC WILL MAKE YOUR CAREER POSSIBLE

Whether your goal is to work for a family childcare provider, operate your own childcare center or transfer your credits to a four-year university, NTC will help you reach your goals.

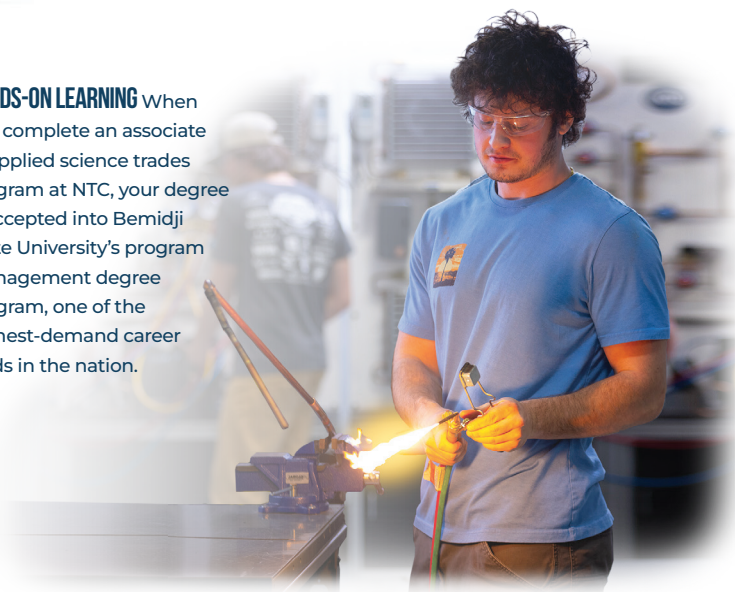

BUILDING SYSTEMS

Build a career from the ground up

Technical education is the quickest path to a high-paying, high-demand career in trades and building systems. Seven out of every 10 job openings in the United States require technical skills.

NTC's programs include electrical construction & maintenance, plumbing technology, and heating, air conditioning & refrigeration technology. Our graduates enter the workforce ready to engage with the latest technology. NTC instructors bring decades of practical experience into the classroom and labs, empowering students to plug into the endless career opportunities in the building trades.

HANDS-ON LEARNING When you complete an associate of applied science trades program at NTC, your degree is accepted into Bemidji State University's program management degree program, one of the highest-demand career fields in the nation.

BUSINESS

Leave your mark on the business world

Whether you want to jump-start or further your business career, our online business programs are designed to position you for the high-demand jobs of the future. You'll learn valuable skills and knowledge that can be applied to private, government and non-profit careers.

No matter your interests, NTC's business programs will set you apart in a competitive job market. From accounting, sales and marketing to management and entrepreneurship, our online business classes allow you to learn on a flexible schedule.

EXPAND YOUR HORIZON Take your associate of science degree in business and make a seamless transition into a bachelor's degree in business administration at Bemidji State University.
