

October 15, 2019

Greetings from the Nursing Department at NTC!

The nursing department at Northwest Technical College in Bemidji, MN, is proud to announce formal notification was received today from the Accreditation Commission for Education in Nursing (ACEN). The Board of Commissioners granted initial accreditation to both the practical nursing diploma program and the associate of science degree nursing program at NTC. National accreditation provides increased opportunities for students' educational and career paths in the nursing profession.

The effective date of initial accreditation is June 30, 2017, and is good until the next evaluation visit in the spring of 2024. Those nursing students who graduated in May of 2018 and May of 2019, and those graduating in the future, may proudly say they graduated from NTC, an accredited nursing program.

A heartfelt thanks to the students, faculty, staff, administration, advisory board members, industry partners, and community associates for making this happen.

Sincerely,

The NTC Nursing Department
