

Queer+ Ally and Advocacy

January 26, 2023

8:00 to noon

Northwest Technical College, Room 152A

The 2SLGBTQIAP+ community around the world is under attack by legal systems, cultural exclusive norms, hatred fueled physical and psychological attached, overall miseducated and under informed rhetoric. The Queer+ Ally and Advocacy training will prepare learners to address injustices and maintain a personal stance as a helper and listener of the 2SLGBTQIAP+ community. Learners will explore the intersectionality of gender, sex, social constructs, and helper praxis. Through the practices of intrapersonal and interpersonal reflection learners will be more equipped to support students and colleagues within the scope of education.
